

## Standing Stones

Why Do We Stand Up Stones? Is this a clue to the Greatest Mystery?

Edifices, Monuments, Obelisks, Pyramids, Statues, Memorials, even the Twin Towers in New York City are physical statements and attempts at achieving something bigger than our everyday life. In the old testament it is often recorded that people would stand up stones at the location of an historic event or battle.

Often it is said that those markers still standing there to this day.

These markers were not all just little piles of rocks here and there - they were monuments and statements to the world that would last longer than the people making them.

We are built for more than what is seen - We are built for Eternity. We are created in God's Image, in His likeness. We were not built to die, we were built to live!

It is sin that produces death, and God sent Yashua, the Messiah to "Bring life" and to restore what was lost.

But the Greatest Mystery is more than just God sending and God Forgiving as Great and truly awesome as these things are.

God does not live in the rocks, and Eternity is not found in the buildings, the pyramids, or the skyscrapers of the present century.

The buildings, stones and monuments are physical attempts of what the World's Greatest Mystery can accomplish.

Get the complete explanation of this profound truth

Read it here at [www.kingsgreatestsecret.com](http://www.kingsgreatestsecret.com) - See the "Table of Contents "

OR - Get the "take along" paperback version ...
